

- **Curriculum Vitae**

Title: <b>Mr</b>	Medicine, Ilam University of Medical Sciences, Ilam, Iran.
First name: <b>Afra,</b>	Tel/Fax: 0098 841 334 8495
Surname: <b>Khosravi,</b>	Mobile: 0098 918 741 9472
Date of birth: 27.07.1964	Nationality: Iranian
Address: Ban Ganjab Court, Immunology Dept., Faculty of	Resident place: <b>Iran</b>

**Career profile:**

- **Position**

**Associate Professor**, Immunology Dept., Faculty of Medicine, Ilam University of Medical Sciences, Ilam, Iran.

Head of Immunology Dept., Faculty of Medicine, Ilam University of Medical sciences, Member of Educational Council of Ilam University of Medical Sciences  
Member of Research Council of Ilam University of Medical Sciences

- **Experiments**

I have finished my PhD at the Liverpool School of Tropical Medicine in the field of Immunology and Molecular Biology. The main purpose of my PhD project, which started from May 2001, was synthesizing 4 recombinant proteins of plasmodium falciparum merozoite surface protein 2 and testing them against human immune sera in order to assess the age dependent humoral immunity responses to those antigens. I have gained the certificate for English language course from (July to September 2000) and also Diploma in human immunity (from Oct 2000 to April 2001) from University of Liverpool.

- **Molecular biology**

Making recombinant proteins (using different E.coli hosts), PCR amplification, Gel Electrophoresis, restriction endonucleases digestion, mini-preparation of DNA, ligation reaction, cloning of ligated plasmids, transformation of competent cells, expression and purification of proteins, SDS PAGE, Western Blotting, Bradford assay for concentration of protein and amplification of vector, antigen extraction, sonication, solubilization of antigens.

- **Immunology**

Working with human sera, pre adsorption of sera with lysate of E.coli, ELISA, IFAT, making monoclonal antibody using NS1 cell line and immunised mice B cells, preparation of peripheral blood leukocytes, counting the WBC, T cell cloning and proliferation.

- **Medical Parasitology**

Cultivation of malaria parasite in vitro, synchronization, Cryopreservation, microscopy detection, making crude schizont antigen, detection of intestinal parasites. Teaching medical Parasitology and Epidemiology to students of Public Health and other students.

- **Public Health**

I have been graduated in BSc of Public Health and worked in Ilam University of Medical Sciences as a Public Health technician few years. In our University I have taught students who were studying for the degree of BSc in Public Health.

- **Computer skills:**

I have attended and completed the IT courses based at the University of Liverpool Computer Centre relating to Microsoft office, Microsoft Word, Excel, PowerPoint, Access, Internet and Email applications, Endnote and some Statistics packages like Minitab and SPSS, online search and storage the new papers.

- **Communication skills**

I have good written and oral communication skills that I have gained working with students and staff from my previous job as a Lecturer and also I have had two courses based on presentation and communication skills for postgraduate students at the University of Liverpool and also I have written my thesis which made me communicate with supervisors and other relevant individuals for development of my communication and writing skills.

- **Past experiences**

I have worked at the Ilam University of Medical Sciences in Iran as a lecturer and a the director of research department from 1994 to early 2000 working at some research projects related to health system in Iran and some teaching either theoretical lectures or practical lab works. Also I've been a member of Educational, Student and research council of Ilam University of Medical sciences from 1994 to 2000. I have been the chief director of the journal of Ilam University of Medical Sciences from 1994 to 2000.

- **Research**

I have worked at research department of my university in Iran involving in some researches such as Hydatidosis in human and wild animals, Mothers and children health cares, different methods of family planning in Ilam, Iran, Evaluation of common intestinal parasites amongst school children, Study on occupational health in industrial workers, Vaccination strategy in children of Ilam and Contaminations in drinking water of rural areas of Ilam town, Iran.

- **Other Skills /abilities:**

Career Skills

Seminars presentation

Preparing handouts / reports

Data analysing using Microsoft Excel, SPSS, Microsoft Word, Endnote, Minitab, Microsoft Access and Internet search

- **Education and qualifications**

- a. 2005 until 2012: Head of Research Dept., Ilam University of Medical Sciences
- b. 2005 until now: Editor in Chief, Ilam University of Medical Sciences
- c. May 2002 to Feb 2005: PhD Project Liverpool School of Tropical Medicine, UK
- d. May 2001 to May 2002: Mphil in molecular biology and Immunology, Liverpool School of Tropical Medicine, Liverpool, UK
- e. Oct 2000 to April 2001: Diploma in Human Immunity, Immunology Dept., Faculty of Medicine, University of Liverpool
- f. July 2000 to Sept 2000: Certificate in English Language Course (Reading, Writing, Speaking, Listening, Oral presentation, Poster presentation, social English), English Language Dept., Faculty of Science, University of Liverpool, UK
- g. 1994 to early 2000: Lecturer at Ilam University of Iran
- h. 1991 to 1994: Studying for MSc at Medical Parasitology
- i. 1988(late) to 1990: Studying for BSc at Public Health and Epidemiology
- j. 1986(late) to 1988: Working at clinic as a member of Primary Health Care team
- k. 1983 to early 1986: Studying for Bachelor in Public Health and Comm. disease
- l. 1980 to 1982: High School studying for experimental sciences

- **Publications- Papers**
